

# This Computes!

**Department of Health Services  
Children's Medical Services Network  
(CMS Net) - Information Bulletin # 35**

Does your county have reporting needs? Well, if you do than we have something pretty new and EXCITING for you to use! It is called Business Object and here are a few highlights:

- Almost instant reports -vs. the CMS Net management reports that can take longer
- Web-based - no software to install (does require Internet Explorer 5.0 or higher)
- AD Hoc report writing capabilities
- Report sharing -your county will be able to develop a report and share the report but NOT your counties data with other counties
- Same security as CMS Net

At this time we have almost all of CMS Net Patient Registration data, Referral/Transfer data, Managed Care information, Diagnosis, and CMS Net user information. We are currently working on getting all of CMS Net data available through this tool.

If your county is interested or want more information please contact Krista Novotny at [knovotny@dhs.ca.gov](mailto:knovotny@dhs.ca.gov) or call her at 916-327-2252.
